Summary

As an enthusiastic and creative front-end developer with a strong foundation in frontend development, I bring excellent communication skills and a proven ability to solve complex problems. I am a dedicated team player, eager to learn and contribute to the growth and success of your organization, demonstrating adaptability, problem-solving, and a customer-focused approach to web development.

SKILLS

React | Redux | Firebase | Javascript | NodeJs | JSX | HTML | CSS | Tailwind | Bootstrap | SASS | MySQL | Git

PROJECTS

Shop Now | E-Commerce React App   Aug 2023 - Sep 2023
- Developed Shop Time an e-commerce clone web app with **fast page** rendering and smooth navigation.
- Enhanced user experience via React Router for **optimized** page routing, and bolstered **security** and engagement by integrating user registration/login features.
- Improved shopping experience with efficient **cart management**, streamlined **checkout**, and a user-friendly **order history** dashboard. **Integrated Razorpay** for seamless transactions.
- Utilized technologies: React, Redux, Router, Hooks, JSON Server, Authorization, and Tailwind CSS.
- **[Demo Live Link](#)**

Movie Time | React Web App   Jul 2023 - Aug 2023
- Pioneered MovieTime: a dynamic React web app harmonizing technology and cinema.
- Curated and updated movie lists, including current, popular, top-rated, and upcoming films, attracting a diverse audience.
- Elevated user experience by seamlessly integrating the TMDB API, enhancing information retrieval and search capabilities, resulting in a 30% increase in user engagement.
- Utilized React, React Hooks, React Router, and Tailwind CSS to surpass project goals, streamlining development while ensuring high-quality standards.
